General Comment

I don't want the government sticking their greedy hands into my 401k, ira or any other form of my retirement that I have worked very hard, 60+ hrs a week doing hard labor, to put as much money into for when I retire as I possibly can. They have no place in my savings or any other form of account that I have put money into since I was 16 years old. I am now almost 40 and have a nice nest egg for when I retire. Stay out of it! It's bad enough that when I do retire and draw money out of some of it that I'll have to pay taxes on it again and then file a tax return on the same money I have already done both to. I have not ever nor will I ever want to or need to live off the state or federal government!!!!!! I don't need them or want them to tell me how to spend or save my money! Period!! The end!!! Stop this craziness!!!! There's so many much more important things that the Feds need to be spending their time and the tax payers money on fixing!!!!!!!!!!!!!!
